A WORD OF ENCOURAGEMENT

By John Galiano
Director of Alumni Relations

The word "encouragement" best describes this year's Alumni Phonathon. "So encourage each other to build each other up..."

"1 Thes 5:11. One bible commentary adds "a word of encouragement offered at the right moment can be the difference between finishing well and collapsing along the way".

Your prayers and support made a difference! Scholarships were raised, which will help current students successfully complete their education. Student callers received personal encouragement talking with many alumni and friends of the University. And students lifted the many alumni prayer requests before God each night and continue to do so.

Together we are partners in the ministry of LeTourneau University. Many of you will agree with me that our education at LeTourneau has helped us to be faithful to God wherever He has lead us rather than following the ways of the world. Thank you for giving others that same help to "finishing well!"

Prospective students and others interested in receiving information about enrolling at LeTourneau University may call toll free: 1-800-759-8811
Calls to this number are answered in the admissions office and cannot be transferred to other offices.
The number for all other calls is : 1-903-753-0231.

Athletic Scholarships Initiated

In a recent interview Dave Diehl, Director of Athletics at LeTourneau, talked about the new athletic scholarship program and about the LeTourneau athletic program.

Dave Diehl

Editor: An athletic scholarship program was begun at LeTourneau in 1991. How does it work?

Diehl: To attract a greater number of talented athletes we began this year to offer modest scholarships in soccer, baseball, volleyball and basketball. To qualify for an athletic scholarship prospective students must fulfill all of the normal admissions requirements which apply to all other students. The athletic scholarship becomes one part of the total financial aid package offered to the athlete.

Editor: How will the athletic

scholarships help in recruiting athletes?

Diehl: For many athletes, receiving an athletic scholarship is the deciding factor in whether or not they are able to attend a college or university like LeTourneau. The scholarships enable us to attract students who not only have athletic ability but who are capable of completing a degree at LeTourneau.

Editor: What are your recruitment standards?

Diehl: The first thing we look for is athletic talent. Our goal is to develop teams that are as competitive as we can make them. Then we look for the other important personal qualities that are expected at LeTourneau; character, academic ability, and spiritual maturity. We look for athletes who will fit into life of the university and who will benefit from being here and who can make a contribution to the lives of other students.

Editor: LeTourneau is a member of the NAA and the NCCAA. What are those organizations?

Diehl: NAA is the National Association of Intercollegiate

Athletics. The NCCAA is the National Christian College Athletic Association. Both associations have team rankings and playoff systems in which we participate. We schedule our varsity teams to play with teams of comparable skill from other schools. The performance of the teams is ranked by the associations and the top teams advance to the playoffs. On November 26-30 LeTourneau will host the NCCAA Soccer Tournament involving 8 district winners from across the nation. This is the eighth year we have hosted the tournament which brings top teams to the campus.

Editor: What varsity sports are offered at LeTourneau?

Diehl: We offer women's cross country and volleyball and men's cross country, soccer, baseball and basketball.

Editor: How are the teams doing this year?

Diehl: They are all improving. This year we had solid performance from our 18 member cross country team, coached by Ken Roden, which includes both men and women. The soccer team suffered throughout the season from injuries, but it looks

like there will be substantial improvement coming up next year.

Women's volleyball, coached by Kathy Luckert, ended their season with an 8 and 17 record. They played a tough schedule but made it to the district finals.

The basketball and baseball teams look to be the strongest teams this year. Basketball coach, Mike Springer, has veterans returning and has some strong new players to give the team an extra boost. Baseball coach, Paul Schwindel, expects his team to be very competitive.

Editor: How does the future look for athletics at LeTourneau?

Diehl: The initiation of an athletic scholarship program is a sign that we're serious about fielding competitive teams and that the future looks bright for our athletic program. Our goal is to reach a higher level of selective excellence. We have already been able to recruit more talented athletes and we expect our teams to increase the numbers in the win column. One of our main goals is to become more competitive at the NAA district level.

Tours Designed to be Life Enriching

Tour members express it best: "What can we say. Every day defies description! New adventures! Wonderful experiences! Indescribable scenery! All planned with such attention to detail — and all directed with such loving care and such concern for our maximum enjoyment." "The more I reflect <on our tour>, look at pictures and tapes, and talk with others concerning what they saw and did, the more I realize how special our trip was." "Of all that we did and saw, the most impressive was the Christian group you assembled <for the tour>. Thanks for a memorable vacation."

What are these people talking about? They are re-living the very special tour Alaska Cruise or Australia-New Zealand Tour. LeTourneau tours are special. Travel is combined with the pursuit of knowledge, adventure with purpose and fellowship with inquiry. The people are of all ages and come from all over the United States. They are just like you: they enjoy travel, making friends and they enjoy being with other Christians. We would like to include you in our growing "travel family." Consider the following travel opportunities.

TOURS FOR 1992

MAY 22-JUNE 7, 1992: GREAT BRITAIN

Join us for an exciting 17-day tour of England, Wales and Scotland. All those places you've wanted to see: Windsor Castle, Stonehenge,

QUIGG EVACUATED FROM ZAIRE

LeTourneau alumnus, Steven Quigg, a missionary pilot serving his first term in Zaire under the United Methodist Board of Global Ministries, was recently evacuated from Zaire along with 43 other missionary personnel, because of citizen uprisings against the government. "I was right there watching the city of Kinshasa literally coming apart," said Quigg. Quigg is now living in Ocean Grove, New Jersey. He previously served eight and a half years as a missionary pilot in Nigeria.
